Subject: Please Support the Consensus Plan -- FCC WT Docket #02-55

Chairman Michael K. Powell
Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Dear Chairman Powell,

reber@cros.net Emergency response
communications have never been more critical,
or more difficult.

That's because of a common problem on police,
fire and EMS
radios: interference. Interference, garbled
or dropped communications, inhibits first
responders from doing their jobs safely and
effectively. Essentially, if first responders
can't communicate, they can't help and may
themselves be in danger.

There is a solution before the FCC: the
Consensus Plan. Over 300 public safety
organizations, local governments, and
congressional officials support this Plan

because it eliminates interference before it occurs and at no additional cost to federal, state or local budgets - or the American taxpayer.

The 300 Consensus Plan supporters that have filed with the FCC, along with John Walsh, host of America's Most Wanted, recognize the importance of communications for America's police, fire and EMS workers. This problem has existed long enough, and our first responders deserve better. I am asking you to help.

Please listen to the voices of public safety. Our neighborhoods, families and fellow public safety professionals cannot afford to wait any longer.

Sincerely,

REBER FORNWALD
